SUMMARY

A hard-working individual with good communication and multi-tasking skills developed through work experience in customer and voluntary community service. Looking for further deepening interests in web-development thus expanding my knowledge for professional growth in the design industry. I am very passionate about creativity, and in order to be well suited to web-development opportunities, I have decided to undertake self learning.

PROJECTS

Journey of Results Ltd

I worked for Journey of Results Ltd to build their consulting firm website. I was part of a team and my task was to add functionality to the website. I also learnt SEO & some web design through this experience.

Technologies: Wix Velo, Web Design, CMS

[View Project](#)

Personal Website

Created a dynamic portfolio to showcase projects and professional journeys.
